the connection value is a book that delves into the psychological value necessary to foster inner harmony allowing the heart to manifest the divine energy of unconditional love through the mind this is a contemporary interpretation of what was traditionally referred to as the holy spirit it is the physical transformation brought about by the kundalini awakening which balances energy within and initiates a profound connection activation within the self through the connection value readers are invited to let go of past traumas and release themselves from the burdens of conditioning personal struggles and generational trauma that weigh on their souls the book encourages readers to turn inward and seek their own inner peace rather than seeking salvation or rewards outside of themselves this is a compelling and thought provoking call to action for humanity to pay attention to the transformative power that lies within each of us the connection value is a powerful tool for healing and growth and an inspiration for those seeking a more connected and fulfilling life

most books on network planning and optimization provide limited coverage of either gsm or wcdma techniques few scrape the surface of hspa and even fewer deal with td scdma filling this void evolved cellular network planning and optimization for umts and lte presents an accessible introduction to all stages of planning and optimizing umts hspa

educators across subject areas are striving to integrate primary sources into their

pedagogy and teaching yet despite their importance to authentic disciplined inquiry the implementation of primary source activities in the pre k 12 classroom has been limited this lack of utilization can largely be attributed to the perception that these activities are too complex to design implement and grade many teachers also feel that primary source analysis and the construction of evidence based narratives is too difficult for students to complete in the traditional classroom waring argues that this is not the case and with this handbook provides teacher candidates and inservice teachers with detailed and specific perspectives activities approaches and resources to help them effectively and authentically use primary sources in their classrooms book features introduces teaching with primary sources including detailed examples of authentic and tested instructional ideas and approaches designed to meet the needs of classroom teachers and teacher candidates in social studies english and language arts mathematics science and other fields offers dozens of primary sources and links to resources throughout the book aligns to national standards frameworks and the c3 framework for social studies can be used to meet the needs of emerging english learners and students with special needs focuses on ways in which educators are utilizing a variety of emerging technologies to engage students in deeper and more authentic ways of learning contributors include peter degraene lisa fink eric j pyle stefanie r wager sarah westbrook and trena l wilkerson

in the era of covid 19 many people have suffered high levels of stress and mental health problems to cope with the widespread of suffering physical psychological social and economical the positive psychology of personal happiness is no longer the sole approach to examine personal wellbeing other approaches such as viktor frankl s theory of self transcendence provide a promising framework for research and intervention on how to achieve resilience wellbeing and happiness through overcoming suffering and self transcendence the existential positive psychology of suffering complements the positive psychology of happiness which is championed by martin seligman as two equal halves of the circle of wellbeing and optimal mental health this research topic aims to examine the different approaches to positive psychology and

their influence on individual wellbeing during the covid 19 era one of the exciting development in the positive psychology of wellbeing is the mounting research on the adaptive benefits of negative emotions such as shame guilt and anger as well as the dialectical process of balancing negative and positive emotions as an example based on all the empirical research and frankl s self transcendence model wong has developed the existential positive psychology of suffering pp2 o as the foundation for flourishing here are a few main tenets of pp2 o 1 life is suffering and a constant struggle throughout every stage of development 2 the search for self transcendence is a primary motive guided by the meaning mindset and mindful mindset 3 wellbeing cannot be sustainable without overcoming and transforming suffering in this research topic we welcome diverse approaches discussing the following points the dialectic process of overcoming the challenges of every stage of development as necessary for personal growth and self transcendence the role of self transcendence in resilience virtue meaning and happiness the upside of negative emotions the new science of resilience based on cultivating the resilient mindset and character how to make the best use of suffering to achieve out potentials mental health
